Dear Doug,

I've made a note for when someone is here who can use the stairs for me to go to my FBIHQ Ruby file, 44-24106, and bring Serial 138 up. It should have the third page, if it does I'll send it to each of you. *(not paper documents are serial 138 ed.)*

There were so many at one time I let the Ruby file wait and have yet to get to it!

I think that can be important but I also think it can be made up, that someone did it with a purpose in mind. I see no reason to believe that Oswald knew Ruby. But Mary is right-it should be looked into as much as is possible.

Glad you are enjoying O in MO. I had it finished about April or May, 1967.  
Never got in most stores.

I have put much on paper about Garrison and if you are here again you are welcome to go over it. He was a great tragedy for himself and for us all, as some of us were in letting him con us. I should have realized earlier than I did. But how I did is quite a story. I've not put all the details on paper, if you are here and want to tape it but in brief, he was going to do worse than he had with Shaw to mark the 5th assassination anniversary! *Mary, if she remembers, knows part of this.*

Please tell Barb that from recollection-which is not as dependable as it once was-a guy at the CIA named as I recall Dolan had something to do with its relations with the Commission. If so, probably later with the Archives.

Gary had not told me he is working on a book. Please tell him and Kathy they are welcome to use anything of mine they may want to. I just wrote Gary urging him to study the Zapruder film at about 345, two frames or so, where the back of the head is quite clear and it be able to disprove it before they get all ensnared in what they can not disprove. Lifton had an excellent print that as I told Gary he bragged about stealing.

If it were to simplify the most basic advice, and I'm deep into NEVER AGAIN! ~~proofs~~ proofs with a rush on them - it would be to go with Occam. Also spelled Ockham. About whose philosophy, paraphrased, ~~we~~ keep it simplest.

Glad you did not ask those questions! I'm much too busy now. Want the book to make their target, early April.

Best,

Best to the gals, too.

Harold Weisberg
